

| Step | Project Task | Deliverable(s) |
|------|--|--|
| | <p>1 Inventory of available climate model data sets - start with those on glisacclimate and expand if new datasets are missing. For each dataset add a resource page and complete as many descriptive fields as possible</p> | <p>This is an update to glisacclimate data listing. New resource pages will be added to the database if available.</p> |
| | <p>2 For each new dataset added, perform steps 4,5, and 8 of the short-term work plan</p> | <p>each new model will be added to the table of evaluation metrics and analysis will be performed.</p> |
